

COVID-19: What to know about wound care during the pandemic

Wounded patients are vulnerable, having an average of 3 to 4 chronic conditions.

Wounds are a problem...
COVID-19 is a new threat.

Only **1 in 4** people in need receive wound care.

WOUND CARE IS ESSENTIAL, not elective.

ACCESS TO CARE IS IMPORTANT

Healogics® is the wound healing expert, providing care for over 300,000 people each year through our national network of Wound Care Centers®.

Can't get to a Center?
Telehealth is an option.

The Healogics telehealth option gives patients access to a wound care provider.

STAY VIGILANT!

Check your feet regularly.
Wounds and sores should not be ignored.

Visit www.Healogics.com to find an advanced wound care option.
