THE DAY BEFORE YOUR COLONOSCOPY

- Mix the colon preparations according to the instructions on the bottle and refrigerate.
- Follow a clear liquid diet for the day. Examples are broth, jello, popsicles, water, Sprite, ginger ale, tea, coffee, 7-up and clear juices. **NO RED OR PURPLE DYES.** Do not have any solid foods until after your procedure.
- Start drinking the Golytely at 6 PM. Drink a glass every 15-30 minutes. The entire container must be finished by 10:00 PM. If cramping, nausea or vomiting should occur, take a 30-45 minute break from drinking the solution. Your goal is to have clear, watery stools; this is when you know your colon is completely clean and ready for your procedure.
- Feelings of nausea and bloating are common due to the large volume of liquid you will consume. This feeling is temporary and should subside when bowel movements begin.
- Do not drink anything after midnight, including gum, mints or tobacco products of any kind.
- **NO DIP, CHEWING TOBACCO, CIGARS OR CIGARETTES.**

THE DAY OF YOUR COLONOSCOPY

- If you are diabetic, you will need to adjust your medication dosage for the day. You will hold your oral medications the morning of your procedure.
- You may take your heart and blood pressure medication(s) with a small sip of water.
- Please complete and bring all paperwork you've been given, your insurance cards, and state issued ID.
- You will be sedated for your procedure and will need a driver to take you home. You will not be able to drive or work the rest of the day. We are not permitted to allow you to utilize taxis, Ubers, buses, or other forms of public transportation to take you home following your procedure.

IF YOU HAVE NOT HAD A BOWEL MOVEMENT BY 10PM THE DAY BEFORE YOUR PROCEDURE, PLEASE CONTACT THE HOSPITAL AND HAVE THEM PAGE YOUR DOCTOR 580-355-8620
